AI SOLUTIONS LEAD | TECHNOLOGY IMPLEMENTATION & ADOPTION

PROFESSIONAL PROFILE

Technology implementation and enablement leader with 10+ years of progressively responsible experience across corporate operations, higher education and K-12 public education. Steps into undocumented, fragmented environments, listens first, and builds the intake processes, SOPs and training that get people using new systems. Supported Hibbett Sports' delivery expansion from 5 to 102 hubs across 1,100+ stores in 36 states; authored migration playbooks and delivered 25+ training sessions for 400+ faculty and staff during Samford University's move to Microsoft 365; and rebuilt operational foundations in a Title I school district, including the district's first in-house professional development in five years. Experienced with Microsoft 365/Entra ID, PowerSchool, Clever, Canvas, Oracle, Salesforce and Bringg, and with FERPA and COPPA data-privacy requirements. Uses AI tools (ChatGPT, Claude, Copilot, Gemini) daily for research and documentation, with human review before anything ships.

AREAS OF EXPERTISE

- **Intake & Use Case Discovery:** discovery consultations, survey-led needs assessment, request routing and ticketing, business cases and board presentations
- **Governance Coordination:** data-privacy review, access cleanup, asset inventory, board approval processes
- **Identity & Data Integrity:** SIS cleanup and rostering, Clever integration, Microsoft 365/Entra ID, MFA and SSO support
- **Workforce Readiness & Enablement:** requirements gathering, phased rollouts, live training, how-to guides, onboarding materials
- **Change Management & Employee Experience:** communication cadences, cross-team engagement, cross-trained coverage, holiday and peak-season planning

KEY IMPACT

- **79% first-year adoption:** implemented a district-wide Frontline timeclock, giving HR and payroll visibility into staff time for the first time.
- **219 staff trained:** hosted the district's first in-house professional development in 5+ years, with every participant completing the follow-up survey for credit.
- **752 to 484 staff records:** cleaned the student information system to the staff actually employed, closed dormant profiles, and fully integrated Clever.
- **800 devices, 7 rooms, $15K+:** found and deployed 800 unused Chromebooks, returned 5 classrooms and 2 labs to instruction, and recovered $15K+ through a board-approved buyback.
- **98%+ for three years:** teams I led never fell below 98% on employee satisfaction or safety at Best Buy, across unannounced corporate visits every two to three months.
- **5 to 102 hubs in 7 months:** supported rollout readiness and route validation for Hibbett's last-mile delivery expansion.

PROFESSIONAL EXPERIENCE

MIDFIELD CITY SCHOOLS | Midfield, AL

Technology Integration Lead **Nov 2024 – Present**

- Hand-delivered and hand-keyed 523 staff needs-assessment surveys, then spent a month observing classrooms to pinpoint the top gaps: communication and training (78%), PowerSchool (77%) and digital literacy standards (52%).
- Cleaned the student information system from 752 listed staff to the 484 actually employed, rostered all active staff, and closed dormant user profiles to secure Clever rostering.
- Hosted the district's first in-house professional development session in 5+ years; 219 staff completed the session and follow-up survey for credit. Followed with a gradebook course; no gradebook issues since.
- Found and deployed 800 unused Chromebooks stored at one site, returned 5 classrooms and 2 labs to instruction, and recovered $15K+ through a board-approved buyback and recycling initiative.
- Implemented a district-wide Frontline timeclock, reaching 79% adoption among required staff in its first year and giving HR and payroll visibility into employee time.
- Launched a Google ticketing system that routes technology requests to the right person, a monthly staff newsletter, and a board-approved district calendar uploaded before any late notices.

- Authored K-4 and 5-8 Digital Literacy and Computer Science pacing guides designed to work without home internet or personal devices.
- Designed the C.O.R.E. operating model and presented it to district leadership to align people, workflows, data and governance across campuses.

SAMFORD UNIVERSITY | Homewood, AL

Service Desk Technical Analyst II **May 2023 – Jan 2025**

- Authored SOPs, FAQs and migration playbooks for the university-wide move from Google Workspace to Microsoft 365.
- Designed and led 25+ live "Tech Talk" workshops and enablement sessions for 400+ faculty and staff.
- Redesigned employee technology onboarding and device provisioning, cutting setup time by 30% through improved cross-department scheduling.
- Administered Microsoft 365 user configurations, supporting identity verification, single sign-on (SSO) and multi-factor authentication (MFA) across campus.

HIBBETT SPORTS | Birmingham, AL

Omnichannel Analyst and Program Manager **May 2022 – May 2023**

- Supported rollout readiness, operational documentation and route validation for a last-mile delivery expansion from 5 to 102 hubs in 7 months, across a network of 1,100+ stores in 36 states.
- Ran field route testing and turned operational issues into clear functional requirements for internal developers and delivery partners (DoorDash, Instacart, Spark, Point Pickup).
- Created role-specific demos, SOPs and training for dispatchers, store managers and field operators across 50+ locations.
- Built Power BI dashboards for delivery KPIs, and wrote call-center resolution matrices and manager checklists that reduced escalations by 20%.

XPO LOGISTICS | Bessemer, AL

Freight Operations Supervisor **Nov 2020 – May 2022**

- Led 6–10 dock employees and coordinated 15–20 drivers on night shifts at a 100+ worker facility.
- Doubled nightly outbound volume from 4–5 to 10–12 trucks by standardizing staging, onboarding and safety routines, with zero driver safety violations.
- Coordinated the field deployment of MC40 handheld terminals and trained staff to use them.

BEST BUY | Mobile, AL & Houston, TX

DDC/Geek Squad Operations & Repair Supervisor **Aug 2017 – Mar 2020**

Earlier roles: Geek Squad Manager, 2016–2017 | Seasonal Customer Service Specialist, 2014–2016

- Supervised operations at a new depot where two operations (182 workers combined) shared one building, coordinating vendors, carriers, contingent-worker contracts, accounts payable and payroll.
- Created a scanner-based receiving batch process that ended next-day trailer carryover and put customer repair units in technicians' hands by 10 a.m.
- Earned a Geek Squad processing compliance score of 82 within three months despite roughly six weeks without Wi-Fi; no later score fell below it.
- Teams I led never fell below 98% on employee satisfaction (E-Voice) or safety compliance across three years of unannounced corporate visits.
- Set up yellow/white trailer-seal routing with DDC leadership and the trucking carrier, and led cross-department holiday readiness planning.
- Mentored four technicians into leadership roles within 12 months; traveled to California and Seattle to train new depot locations on space management.
- Wrote guides and cross-trained routines that let my manager take a full week off without being contacted.

EDUCATION & TRAINING

Coursework in Information Technology, Wallace State Community College

Training: Microsoft AI educator courses · Oracle Fusion Cloud ERP foundations · PowerSchool SIS administrator tracks
